

The ClearPoint® System Initial Site Analysis:

Administration

Surgeon Users:

Who are the dedicated neurosurgeons for the following sub-specialties?:

Functional Movement Disorders: _____

Functional Epilepsy Focus: _____

Oncology: _____

Pediatric: _____

Do any of the surgeons have pre-existing interest or prior training on the ClearPoint® system?

Yes No

Could individual meetings be arranged with each potential ClearPoint surgeon user?

Case Volumes:

What are the current case volumes for the following procedures? If this is a new program, what are the anticipated annual case volumes based on disease demographics?

	Deep Brain Stimulation (DBS) / Responsive Neurostimulation (RNS)	Laser Interstitial Thermal Therapy (LITT)	Brain Biopsy	Drug or Stem Cell Delivery
Movement Disorders				
Parkinson's Disease				
Essential Tremor				
Dystonia				
Psychiatric Disease				
Epilepsy				
Primary Brain Tumors				
Brain Metastases				
Radiation Necrosis				
Other				

MRI Resources:

What type of MRI facilities are at your institution?:

Diagnostic MRI Resources:

	Siemens	Philips	GE
Scanner 1			
Location? (Hospital, Outpatient)			
Magnet Strength?			
Primary Use?			
Install Year?			
Number of Daily Scans?			
Scanner 2			
Location? (Hospital, Outpatient)			
Magnet Strength?			
Primary Use?			
Install Year?			
Number of Daily Scans?			
Scanner 3			
Location? (Hospital, Outpatient)			
Magnet Strength?			
Primary Use?			
Install Year?			
Number of Daily Scans?			

Intraoperative MRI Resources:

Does the institution currently have an intraoperative MRI (e.g.-IMRIS)?:

Model/Date/Strength: _____

How often is the intraoperative scanner used by neurosurgery?:

Daily Weekly Monthly

What are the barriers/complaints regarding its use, if any?: _____

Additional Notes:
